

## C-Track Curves and Radii explained

- R-1 Radius 360 mm: **14.17"**
- R-2 Radius 437.5 mm: **17.20"**
- R-3 Radius 515 mm: **20.28"**
- R-4 Radius 579.3 mm: **22.81"**
- R-5 Radius 643.6 mm: **25.34"**

The XX gives you the approximate degrees, thus 24330 is R-3, 30 degrees, 24224 is R-2, 24.3 degrees. A 24224 and 24206 put together are identical to a 24230.
